

## Refresher Courses Programs for Professionals available in December.

We can design any refresher course according to the client's specific requirements, regarding course content, duration, number of participants, topics covered during the course.

Need to update your knowledge of a newer system, revised industry procedures, or the latest accounting standards? Or do you just want to reinforce your knowledge? With this benefit, you can re-take any of your prior coursework.

To begin the process of enrolling in a refresher course, please email us in [info@zcc.ac.tz](mailto:info@zcc.ac.tz). A representative will contact you and, depending on your goals and program, consult with your HR department to determine the best refresher course for you.
